Course Description

This course provides comprehensive training in Logical Reasoning, a critical component of nearly all competitive and entrance exams. We cover all three major areas: logical, analytical (non-verbal), and critical reasoning. You will learn systematic approaches to deconstruct problems, identify patterns, and arrive at the correct solution efficiently.

The curriculum includes topics like Series, Coding-Decoding, Blood Relations, Syllogisms, Seating Arrangements, and more. Each topic is taught with clear explanations and a variety of examples. The course is designed to build your problem-solving intuition and analytical thinking, which are valuable skills beyond just exams.

What You'll Learn:

- Verbal Reasoning: Series, Analogy, Blood Relations, Coding-Decoding.
- Analytical Reasoning: Seating Arrangements, Puzzles, Syllogisms.
- Non-Verbal Reasoning: Mirror Images, Paper Folding, Figure Completion.
- Techniques for solving problems quickly and accurately.
- Strategies for different types of reasoning questions.

Who Is This Course For?

This course is essential for students preparing for campus placements, MBA entrance exams (CAT, XAT), banking exams (IBPS, SBI), SSC, railways, and other government employment tests.
